FOREWORD

This student handbook was developed to answer many of the commonly asked questions that you and your parents may have during the school year and to provide specific information about certain board policies and procedures. This handbook contains important information that you should know. Become familiar with the following information and keep the handbook available for frequent reference by you and your parents. If you have any questions that are not addressed in this handbook, you are encouraged to talk to your teachers or the building Principal.

This handbook summarizes many of the official policies and administrative guidelines of the Board of Education and the District. To the extent that the handbook is ambiguous or conflicts with these policies and guidelines, the policies and guidelines shall control. This handbook is effective immediately and supersedes any prior handbook and other written material on the same subjects.

This handbook does not equate to an irrevocable contractual commitment to the student, but only reflects the current status of the board's policies and the school's rules as of June 30, 2013. If any of the policies or administrative guidelines referenced herein are revised after June 30, 2013, the language in the most recent policy or administrative guideline prevails.

ATTENDANCE

It has long been established that good attendance is strongly related to success in school. Michigan Law requires that children between the ages of six and sixteen attend school regularly. It is important to remember that during daily classroom instruction, multiple means of assessment are being used. This means that when a student misses classroom instruction, they have missed valuable classroom interaction, discussion, note-taking, lecture, participation, speaking, etc. We urge parents to support strong student attendance and to cooperate with the following policies, practices, and regulations.

- 1) Parents are requested to call the school attendance line by 9:00 a.m. on each day a student is to be absent from school. The attendance line can be accessed 24 hours a day.
- 2) If parents have not called by 9:00 a.m., school personnel will call to check on the child.
- 3) In the event phone contact was not made by home or school, parents are requested to send a signed, dated note to school on the day the child returns to school explaining the reason for the absence.

Please put names in clothes so we may attempt to return them to the correct owners. Many young students do not claim their own clothes and boots.

SCHOOL BOARD MEETINGS

School board meetings are held on the third Monday of each month in the library at 5:30pm.

WEAPONS IN SCHOOL

No weapons should be brought to school. Anything that would not be allowed on an airplane should not be brought to school. If a student brings a weapon, such as a Leatherman's tool, to school by mistake, they should go to the first teacher or aide they see and give it to them to keep until the end of the day. We will call home to inform the parents. You will not be in trouble if you turn it in immediately.

STUDENT DISCIPLINE

The Chassell Township Schools believe that every child in its school system should have an equal opportunity to learn and succeed to the fullest extent, and that every child is entitled to the rights and responsibilities of a democratic society. The following policy on student conduct and discipline includes an entire program and involves two major emphases:

1. To guide the pupil, so that s/he is responsive to the immediate efforts of teachers and other pupils in the learning situation, and, therefore, does not threaten either the classroom behavior or instruction.
2. To assist the pupil in becoming a responsible, productive, and self-disciplined citizen within the school, in preparation for assuming his/her adult responsibilities. By the time s/he reaches high school, it is expected that the pupil will assume responsibility for his/her own behavior.

The purpose of the school is to help students develop self-control and self-discipline. For this reason:

1. Discipline and control must be treated as an individual matter for each pupil. Each student must be dealt with as an individual according to his age and maturity, experience, abilities, interests, and values.
2. The best discipline is preventative in nature rather than regulator and restrictive. A student's behavior in school is directly related to many internal and external factors, including: the student's image of his/herself, his/her active participation in both the curricular and extracurricular activities of the school, his/her motivation to learn, and the understanding and support s/he receives from his/her parents, teachers, and other adults.

Every effort should be made by the staff to solve disciplinary problems within the school setting and without excluding a student from school. If this cannot be done, exclusion may be necessary. Such exclusions may fall in the following categories:

1. Temporary separation- defined as exclusion of a student from school for up to three days, either from one class period or for the full day.

2. Suspension- defined as the exclusion of a student from school for a specific period of time terminating at the end of the specified period or upon the fulfillment of a specific set of conditions. Suspension for periods beyond ten days is discouraged.
3. Expulsion- defined as the **permanent** exclusion of a student from school.

Parents shall be informed and involved when a student exhibits a history of unacceptable conduct. Records of such involvement shall be maintained in the Principal's office.

The principal shall be responsible for documenting evidence to support any action of suspension or expulsion as well as efforts to solve the problem. Such documentation shall be in writing. This information will be kept in the Principal's office.

The authority of the Board of Education to authorize suspension or expulsion and to make reasonable rules and regulations regarding discipline is granted in Section 340.613 and 340.614 of the School Code. Section 340.613 authorizes suspension for the following reasons: gross misdemeanor, persistent disobedience, or habits or bodily conditions detrimental to the school.

Assuming the responsibility granted to it by law, the Board of Education establishes the following categories of misconduct (while a student is under jurisdiction of the school) as those with may result in temporary separation, suspension, or expulsion from Chassell School. These categories are general in nature and are not deemed to be all-inclusive.

1. Matters relating to public and private property
 - a. Theft
 - b. Misuse of books, materials, and equipment
 - c. Defacing property
 - d. Trespassing (unauthorized presence in a building)
 - a. Matters pertaining to citizenship
 - e. Violation of state laws, local ordinances, approved safety and fire codes, laws pertaining to civil disobedience
 - f. Use of profane and/or obscene language
 - g. Possession of weapons or explosives
 - a. Matters pertaining to attendance
 1. Violation of compulsory attendance laws
 2. Persistent tardiness
 3. Failure to attend school regularly
 4. Truancy
 - b. Matters pertaining to the safety of others
 1. Physical attacks or threats to students or school employees
 2. Fighting
 3. Extortion
 - c. Persistent disobedience and/or breaking of school rules and regulations
 - h. Gross misbehavior- conduct detrimental to the normal functioning of the school and school activities.

Under present law, the Superintendent and Principal of Chassell Township School are delegated the authority to temporarily separate or suspend a student from school.

Suspensions of more than ten days are discouraged. In such actions, the following precepts shall be adhered to:

1. A student shall be fully informed of the charges brought against him including the rationale for the action and the conditions of time and termination.
 - a. Parents shall be immediately notified by phone or personal contact when a student is to be temporarily separated or suspended from school. Written notation of such contact shall be made in each instance.
2. Verbal notification shall be followed by written communication to the parents or stating the charges, reasons, and conditions of the separation or suspension.
3. The Superintendent, or administrative officer designated by him, shall be notified immediately of any separation or suspension.

4. Appeal procedures shall include:
 - a. Parents may request a conference with the Principal. Such requests shall be made within the period of the separation or suspension. The Principal shall affirm or modify the terms of his/her action within two school days from the date of the conference. The Principal's decision, in cases of temporary separation, shall be final.
 - b. Within five school days from the Principal's decision, the parent may appeal such decision to the Superintendent or his/her designee. The Superintendent shall affirm or modify the decision of the Principal within two school days from hearing the appeal.
 - c. The Superintendent's decision may be appealed to the Board of Education within five school days of such decision.
 - d. The Board of Education shall schedule a hearing within ten school days and shall notify the parents that said hearing shall be conducted under the following rules and procedures:
 - e. Written notice shall be given of the time, date, and place of the hearing.
 - f. The student or parent may be represented by an attorney or other advisor of their choosing.
 - g. Witnesses may be presented at the hearing and the student or his/her representative may question witnesses testifying against the student.
 - h. The hearing is not a court proceeding and court rules of evidence shall not be enforced at such a hearing.
 - i. There may be present at the hearing the Principal, the Board of Education's attorney, and such resource persons, as the president of the Board deems essential to the proper adjudication of the case.
 - j. The Board of Education shall render a written opinion of its determination within two school days from the date of the hearing. Such written opinion shall be forwarded to all parties concerned.

The Superintendent shall make recommendation for the expulsion of a student from school to the Board of Education. Such action is generally taken upon recommendation of the Principal. The Principal's recommendation shall be communicated to the Superintendent in writing, signed by the Principal, and accompanied by the student's accumulative file. It is expected that parental conferences would have been at the building level prior to the exclusion recommendation. The following procedures shall be as follows:

1. The student shall be under suspension pending the recommendation of the Superintendent to the Board and pending the Board's decision.
 - a. The Superintendent's recommendation to the Board shall be in writing. It shall include the essential elements that form the basis of the charge. A copy of the recommendation shall be transmitted to the parent or guardian of the student being considered for expulsion.
2. The Board of Education shall set the date, time, and place of the hearing and shall transmit written notice of the same to the parent or guardian at least five school days before the date of the hearing.

Efforts shall be made by the school, but not guaranteed, to provide alternate means by which a student, under an extended suspension or expulsion, may continue his/her education. Such opportunities may include evening classes, correspondence courses, special programs, or transfer to another school or school system.

SNAP SUSPENSIONS

A teacher may suspend a student from any **class, subject, or activity** for up to one day when a student's behavior is so unruly, disruptive, or abusive that it materially interferes with the teacher's ability to effectively teach the class, subject, or activity, or the student's behavior interferes with the ability of the other students to learn. The teacher must **immediately** report the suspension to the Principal and send the student to the office for **appropriate action** by the Principal. The student **shall not** be returned to the teacher's classroom that day without mutual agreement of the teacher and Principal. **As soon as possible** after the suspension, the teacher **shall** ask the student's parent/guardian to attend a conference at which an administrator **shall** also be present if the teacher or parent/guardian so requests. The school counselor **shall** also attend this meeting where practicable.

PERMANENT EXPULSION

In compliance with State and Federal law, any student who possesses a dangerous weapon in a weapon-free school zone or commits arson, criminal sexual conduct in a district building or on district property, including school buses and other school transportation shall be permanently expelled from school. Any student in grade 6 or above who physically assaults a school employee, volunteer, or contractor shall be permanently expelled, subject to reinstatement after 180 days. The statute defines **physical assault** as **intentionally** causing or attempting to cause physical harm to another through force or violence. As with expulsions for weapons, criminal sexual conduct, and arson, the student is **permanently expelled** from **all** Michigan public schools other than “strict discipline academies” and appropriate alternative education programs.

MANDATORY EXPULSION

If a student in grade 6 or above commits a **physical assault** against another student and the assault is reported to the board or administration, the school board shall expel the student for **up to** 180 school days. If a student in grade 6 or above commits a **verbal assault** against a school employee, volunteer, or contractor and the assault is reported to the board or administration, the school board shall expel the student for **up to** 180 school days. Verbal assault is defined as any statement or act, oral or written, which can reasonably be expected to induce in another person(s) an apprehension of danger or bodily injury or harm.

STUDENT RIGHTS AND RESPONSIBILITIES

Supreme Court decisions based on the U.S. Constitution have given students the following rights:

1. Religion:
 - a. Your Right: The school may not interfere with your right to observe any religion (or none at all) by requiring, establishing, or conducting religious exercises for you.
 - b. Your Responsibility: To respect the religious beliefs and observances of others.
2. Speech:
 - a. Your Right: You have the right to express personal views.
 - b. Your Responsibility: You may not violate another person’s rights by using slanderous speech.
3. Flag Salute and Pledge of Allegiance:
 - a. Your Right: You may not be forced to take part in the salute to the flag or the Pledge of Allegiance if doing so violates your beliefs or values.
 - b. Your Responsibility: You may not disrupt the activities of others who choose to do so.
4. Suspension and Expulsion:
 - a. Your Right: Before you may be suspended from school for ten days or less, the suspending official must:
 - b. Tell you what rule you have broken, or write it down and give you a copy.
 - c. Explain to you why s/he believes that you broke the rule if you deny it.
 - d. Give you the chance to tell your version of what happened.
 - e. Your Responsibility: First of all, you have the responsibility to follow school regulations. The Constitution does not shield you from suspension “properly imposed” according to the above procedures. Secondly, if your conduct is dangerous to other persons or continually threatens to disrupt school, you may be suspended immediately. In such cases, a hearing in which the above rules are followed should be given as soon as practicable after you are suspended.
5. Specific acts of Congress give students the following rights:
 - a. Family Educational Rights and Privacy Act of 1974 gives students over 18 or the parents/guardians of students under 18 rights regarding access to their educational records.
 - b. Civil Rights Act of 1964 makes many types of discrimination against minority group members illegal.
 - c. Title IX of the Education Amendments of 1972 out-laws discrimination by sex and applies to students attending schools that receive federal funds.
 - d. Education of the Handicapped Act establishes the right of a handicapped student to a free, appropriate education.
 - e. Rehabilitation Act of 1973 ensures that students shall, solely on the basis of their handicap, not be excluded from, denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.

ELECTRONIC RESOURCES POLICY

The Chassell Township School District has a variety of electronic resources and access to the Internet available for educational and informational purposes.

The Internet is a vast network of computer networks linking thousands of computers around the world used by educators, businesses, the government, the military, and other organizations, as well as individuals. In schools and libraries it can be used to educate and inform in the same way as learning resources such as books, magazines, videos, CD-ROM, and other informational resources. Students and staff can use the Internet to communicate with other schools, colleges, and organizations, and to participate in distance learning activities. They are able to consult with experts, locate material, research subjects, learn concepts, and meet their informational needs.

Because the Internet is a constantly changing environment, it is impossible to predict with certainty what information users might locate. FOREWORD

This student handbook was developed to answer many of the commonly asked questions that you and your parents may have had during the school year and to provide specific information about certain board policies and procedures. This handbook contains important information that you should know. Become familiar with the following information and keep the handbook available for frequent reference by you and your parents. If you have any questions that are not addressed in this handbook, you are encouraged to talk to your teachers or the building Principal.

This handbook summarized many of the official policies and administrative guidelines of the Board of Education and the District. To the extent that the handbook is ambiguous or conflicts with these policies and guidelines, the policies and guidelines shall control. This handbook is effective immediately and supersedes any prior handbook and other written material on the same subjects.

This handbook does not equate to an irrevocable contractual commitment to the student, but only reflects the current status of the board's policies and the school's rules as of June 25, 2013. If any of the policies or administrative guidelines referenced herein are revised after June 25, 2013, the language in the most current policy or administrative guideline prevails.

STUDENT WELL-BEING

Student safety is a responsibility of the staff. All staff members are familiar with emergency procedures such as fire and tornado drills and accident reporting procedures. Should a student be aware of any dangerous situation or accident, s/he must notify any staff person immediately.

State law requires that all students must have an emergency medical card completed, signed by a parent or guardian, and filed in the school office. A student may be excluded from school until this requirement has been fulfilled.

Students with specific health care needs should deliver written notice about such needs, along with proper documentation by a physician, to the school office.

ENROLLING IN SCHOOL

In general, state law requires students to enroll in the school district in which their parent or legal guardian resides unless enrolling under the district's school of choice option.

New students under the age of eighteen (18) must be enrolled by their parent or legal guardian. When enrolling, parents must provide copies of the following:

1. A birth certificate or similar document
2. Court papers allocating parent rights and responsibilities, or custody (if appropriate).
3. Proof of residency.
4. Proof of immunizations.

Under certain circumstances, temporary enrollment may be permitted. In such cases, parents will be notified about documentation required to establish permanent enrollment.

Students enrolling from another school must have an official transcript from their previous school in order to have credits transferred. The Principal's secretary will assist in obtaining the transcript, if not presented at the time of enrollment.

Homeless students who meet the federal definition of homeless may enroll and will be under the direction of the district liaison for homeless children with regard to enrollment procedures.

New students eighteen (18) years of age or older are not required to be accompanied by a parent when enrolling. When residing with a parent, these students are encouraged to include the parents in the enrollment process. When conducting themselves in school, adult students have the responsibilities of both student and parent. A student who has been suspended or expelled by another public school in Michigan may be temporarily denied

admission to the district's schools during the period of suspension or expulsion, even if that student would otherwise be entitled to attend school in the district.

Likewise, a student who has been expelled or otherwise removed for disciplinary purposes from a public school in another state and the period of expulsion or removal has not expired, may be temporarily denied admission to the district's schools during the period of expulsion or removal or until the expiration of the period of expulsion or removal which the student would have received in the district had the student committed the offense while enrolled in the district. Prior to denying admission, however, the Superintendent shall offer the student an opportunity for a hearing to review the circumstances of the suspension or expulsion and any other factors the Superintendent determines to be relevant.

TRANSFER OUT OF DISTRICT

Parents must notify the Principal about plans to transfer their child to another school. If a student plans to transfer from Chassell, the parent must notify the Principal. Transfer will be authorized only after the student has completed the arrangements, returned all school materials, and paid any fees or fines that are due. School records may not be released if the transfer is not properly completed. Parents are encouraged to contact the Principal or Principal's secretary for specific details.

When transferring student records, school officials are required to transmit disciplinary records including suspension and expulsion actions against the student.

SCHEDULING

Schedules are provided to each student at the beginning of the school year or upon enrollment. Schedules are based on the student's needs and available class space. Any changes in a student's schedule should be handled through the Principal's office. Students may be denied course enrollment due to a lack of available space or the need to pass prerequisites. Students are expected to follow their schedules. Any variation should be approved with a pass or schedule change.

WITHDRAWAL FROM SCHOOL

No student under the age of (18) will be allowed to withdraw from school without the written consent of his/her parents.

IMMUNIZATIONS

Students must be current with all immunizations required by law or have an authorized waiver from the state immunization requirements. If a student does not have the necessary shots or waivers, the Principal may remove the student or require compliance with a set deadline. This is for the safety of all students and in accordance with state law. Any questions about immunization or waivers should be directed to the Principal's office.

EMERGENCY MEDICAL AUTHORIZATION

The board has established a policy that every student must have an emergency medical authorization form completed and signed by his/her parent in order to participate in any activity off school grounds. This includes field trips, spectator trips, athletic and other extracurricular activities and co-curricular activities.

The emergency medical authorization form is provided at the time of enrollment and at the beginning of each year. Failure to return the completed form to the school will jeopardize a student's education program.

CONTROL OF CASUAL-CONTACT COMMUNICABLE DISEASES AND PESTS

Because a school has a high concentration of people, it is necessary to take specific measures when the health or safety of the group is at risk. The school's professional staff has the authority to remove or isolate a student who has been ill or has been exposed to a communicable disease or highly transient pest, such as lice.

Specific diseases include: diphtheria, scarlet fever, strep infections, whooping cough, mumps, measles, rubella, and other conditions indicated by the local and state health departments.

Any removal will only be for the contagious period as specified in the school's administrative guidelines.

CONTROL OF NONCASUAL-CONTACT COMMUNICABLE DISEASES

In the case of non-casual contact communicable diseases, the school still has the obligation to protect the safety of the staff and students. In these cases, the person in question will have his/her status reviewed by a panel or resource people, including the county health department, to ensure that the rights of the person affected and those in contact with that person are respected. The school will seek to keep students and staff persons in school unless there is definitive evidence to warrant exclusion.

Non-casual contact communicable diseases include sexually transmitted diseases, AIDS (Acquired Immune Deficiency Syndrome), ARC-AIDS Related Complex (condition), HIV (Human-immunodeficiency), HAV, HBV, HCV, (Hepatitis A, B, and C), and other diseases that may be specified by the State Board of Health.

As required by Federal Law, parents will be requested to have their child's blood checked for HIV, HBV, and other blood-borne pathogens when the child has bled at school and students or staff members have been exposed to the blood. Any testing is subject to laws protecting confidentiality.

PREPAREDNESS FOR TOXIC AND ASBESTOS HAZARDS

The school is concerned for the safety of students and attempts to comply with all federal and state laws and regulations to protect students from hazards that may result from industrial accidents beyond the control of school officials or from the presence of asbestos materials used in previous construction. A copy of the school district's *Preparedness for Toxic and Asbestos Hazard Policy* and asbestos management plan will be made available for inspection at the board offices upon request.

STUDENT RECORDS

The school district maintains many student records including both directory information and confidential information. Directory information includes"

- Student's Name
- Grade Level
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Degrees, honors, and awards received.

Directory information can be provided upon request to any individual, other than a for-profit organization, even without the written consent of a parent. Parents may refuse to allow the board to disclose any or all "directory information" upon written notification to the board. For further information about the items included within the category of directory information and instructions on how to prohibit its release, you may wish to consult the board's annual *Family Education Rights and Privacy Act* (FERPA) notice, which can be found in this appendix.

Other than directory information, FERPA and Michigan Law provide access to all other student records. Except for limited circumstances as specifically defined in state and federal law, the school district is prohibited from releasing confidential education records to any outside individual or organization without the prior written consent of the parents (or the adult student) as well as those individuals who have matriculated and entered a postsecondary education institution at any age.

Confidential records include test scores, psychological reports, behavioral data, disciplinary records, and communications with family and outside service providers.

Students and parents have the right to review copies of all education records. Costs for copies of records may be charged to the parent. To review student records please provide a written notice identifying requested student records to the Principal's secretary. You will be given an appointment with the appropriate person to answer any questions and to review the requested student records. Parents and adult students have the right to amend a student record when they believe that any of the information contained in the record is inaccurate, misleading, or violates the student's privacy. A parent or adult student must request the amendment of a student record in writing and if the request is denied, the parent or adult student will be informed of their right to a hearing on the matter.

Individuals have a right to file a complaint with the United States Department of Education if they believe that the district has violated FERPA.

Consistent with the Protection of Pupil Rights Amendment (PPRA), no student shall be required, as part of the school program or the district's curriculum, without prior written consent of the student (if an adult or an emancipated minor) or, if an un-emancipated minor, his/her parents, to submit to or participate in any survey, analysis, or evaluation that reveals information concerning:

1. political affiliations or beliefs of the student or his/her parents
2. mental or psychological problems of the student or his/her family
3. sex behavior or attitudes
4. illegal, anti-social, self-incriminating, or demeaning behavior
5. critical appraisals of other individuals with whom respondents have close family
6. relationships
7. legally recognized privileged and analogous relationships, such as those of lawyers, physicians, and ministers.
8. religious practices, affiliations, or beliefs of the student or his/her parents
9. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such a program)

Consistent with the PPRA and board policy, the Superintendent shall ensure that procedures are established whereby parents may inspect any materials used in conjunction with any such survey, analysis, or evaluation.

Further, parents have the right to inspect, upon request, a survey or evaluation created by a third party before the survey/evaluation is administered or distributed by the school to the student.

The parent will have access to the survey/evaluation within a reasonable period of time after the request is received by the building Principal.

The Superintendent will provide notice directly to parents of students enrolled in the district of the substantive content of this policy at least annually at the beginning of the school year and within a reasonable period of time after any substantive changes in this policy. In addition, the Superintendent is directed to notify parents of students in the district, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when the following activities are scheduled or expected to be scheduled:

A. Activities involving the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information, or otherwise providing that information to others for that purpose

B. The administration of any survey by a third party that contains one or more of the items described in A through H above.

The Family Policy Compliance Office in the U.S. Department of Education administers both FERPA and PPRA. Parents and/or eligible students who believe their rights have been violated may file a complaint with:

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

The *Family Educational Rights and Privacy Act* (FERPA), a Federal law, requires that Chassell Township Schools, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, Chassell Township Schools may disclose appropriately designated "directory information" without written consent, unless you have advised the district to the contrary in accordance with the district's procedures. The primary purpose of directory information is to allow the Chassell Township Schools to include this type of information from your child's education records in certain school publications. Examples include:

1. The annual yearbook
2. Honor roll or other recognition lists
3. Graduation programs
4. Sports activity programs showing height and weight of team members

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local education agencies (LEA) receiving assistance under the *Elementary and Secondary Education Act of 1965* (ESEA) to provide military recruiters, upon request, with three directory information categories-names, addresses, and telephone listings- unless parents have advised the LEA that they do not want their student's information disclosed without their prior consent.

If you do not want Chassell Township Schools to disclose directory information from your child's education records without your prior written consent, you must notify the district in writing by September 12, 2014. Chassell Township Schools has designated the following as directory information:

HARASSMENT/BULLYING/HAZING

Harassment of students is prohibited, and will not be tolerated. This includes inappropriate conduct by other students as well as any other person in the school environment, including, employees, board members, parents, guests, contractors, vendors and volunteers. It is the policy of the district to provide a safe and nurturing educational environment for all its students. This policy applies to all activities on school property and to all school sponsored activities whether on or off school property.

Harassment is defined as inappropriate conduct that is repeated enough, or serious enough, to negatively impact a student's educational, physical or emotional well-being. This would include harassment based on any of the legally protected characteristics, such as sex, race, color, national origin, religion, height, weight, marital status or disability. This policy however is not limited to these legal categories and includes any harassment that would negatively impact students. This would include such activities as stalking, bullying, name-calling, taunting, hazing and other disruptive behaviors. The following individual has been designated as the District's Compliance Officer to handle inquiries regarding anti-harassment issues: Howard Parmentier, Superintendent, (906)483-2132, Chassell Township Schools, U.S. HWY 41 South, Chassell, MI 49916.

INDIVIDUALS WITH DISABILITIES

The American's with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act provide that no individual will be discriminated against on the basis of a disability. This protection applies not just to the student, but also to all individuals who have access to the district's programs and facilities.

A student can access special education services through the proper evaluation procedures. Parent involvement in this procedure is important and required by Federal (IDEA) and state law. The following individual has been designated as the District's 504 Compliance Officer/ADA Coordinator to handle inquiries regarding these policies, procedures, and programs: Howard Parmentier, Superintendent, 906-483-2132, Chassell Township Schools, U.S. HWY 41 South, P.O. Box 140, Chassell, MI 49916.

ADVERTISING OUTSIDE ACTIVITIES

Students may not post announcements or advertisements for outside activities without receiving prior approval from the Principal. The Principal will try to respond to requests for approval within 24 hours of their receipt.

ATHLETICS

Chassell Township Schools provides Elementary Basketball which students may participate in. The following is a list of activities currently being offered:

Girls Basketball
Boys Basketball

FIELD TRIPS

Field trips are academic activities that are held off school grounds. There are also other trips that are part of the school's co-curricular program. Students may not participate in any school-sponsored trip without parental consent.

FIRE AND TORNADO DRILLS

The school complies with all fire safety laws and will conduct fire drills in accordance with state law. Specific instructions on how to proceed will be provided to students by their teachers who will be responsible for safe, prompt, and orderly evacuation of the building.

Tornado drills will be conducted during the tornado season using the procedures provided by the state. The alarm system for tornadoes is different from the alarm system for fires and consists of a loud air horn.

REVIEW OF INSTRUCTIONAL MATERIALS AND ACTIVITIES

Parents have the right to review any instructional materials being used in the school. They also may observe instruction in any class, particularly those dealing with instruction in health and sex education. Any parent who wishes to review materials or observe instruction must contact the Principal prior to coming to the school. Parents' rights to review teaching materials and instructional activities are subject to reasonable restrictions and limitations.

SCHOOL SPONSORED CLUBS AND ACTIVITIES

The Chassell Township Schools provides students the opportunity to broaden their learning through curricular-related activities. A curricular-related activity may be for credit, required for a particular course, and/or contain subject matter. Pep Band, High School Bowl, and Science Olympiad are examples.

NON-SCHOOL SPONSORED CLUBS AND ACTIVITIES

Non-school sponsored student groups organized for religious, political, or philosophical reasons may meet during non-instructional hours. The application for permission can be obtained from the Principal. The applicant must verify that the activity is being initiated by students, that the attendance is voluntary, that school staff are not actively involved in the event, that the event will not interfere with school activities, and that school persons do not play a regular role in the event. All school rules will still apply regarding behavior and equal opportunity to participate.

STUDENT ASSESSMENT

To measure student progress, students will be tested in accordance with state standards and district policy. Chassell Township Schools follows the State Assessments.

Additional group tests are given to students to monitor progress and determine instructional needs. These tests are used to help the staff determine instructional needs.

Classroom tests will be used to assess student progress and assign grades. These are selected or prepared by teachers to assess how well the students have achieved specific objectives. Any high school student who wishes to test out of a course in which s/he is not enrolled may do so by taking the final examination for the course and receiving a grade of at least C+ or by demonstrating mastery of the subject matter as determined by the assessment used in lieu of a final examination. Credit for a course earned by a student through this process may be used to fulfill a course or course-sequence requirement but may not be counted towards the required number of credits needed for graduation or be used to determine the student's GPA.

Vocational and interest surveys may be given to identify particular areas of student interest or talent. The guidance staff often gives these.

Students will not be required, as part of the school program or district curriculum, to submit to or participate in any survey, analysis, or evaluation that reveals information of a personal nature in accordance with board policy and federal guidelines.

Depending on the type of testing and specific information requested, parent (or adult student) consent may need to be obtained. Chassell Township Schools will not violate the rights of consent and privacy of a student participating in any form of evaluation. College entrance testing information can be obtained from the Guidance Office.

HOMEWORK

The assignment of homework can be expected. Student grades will reflect the completion of all work, including outside assignments. Homework is also part of the student's preparation for the MEAP test and graduation.

STUDENT FINES AND CHARGES

Students using school property and equipment can be fined for excessive wear and tear and abuse of the property and equipment. The fine will be used to pay for the damage, not to make a profit.

Late fines can be avoided when students return borrowed materials promptly. Others may need their use.

Failure to pay fines, fees, or charges may result in the withholding of grades and credits.

STUDENT SALES

Students are not permitted to sell any item or service in school without the approval of the Principal. Violation of this may lead to disciplinary action.

USE OF SCHOOL EQUIPMENT AND FACILITIES

Students must receive the permission of the teacher before using any equipment or materials in the classroom and the permission of the Principal to use any other school equipment or facility. Students will be held responsible for the proper use and protection of any equipment or facility they are permitted to use.

VISITORS

Visitors, particularly parents, are welcomed at school. If a person wishes to confer with a member of the staff, s/he should call or an appointment prior to coming to the school, in order to schedule a mutually convenient time. Students may not bring visitors to school without prior written permission.
